Just spoke with Marcia; she had talked with Amy earlier, and had sent her the following/attached materials. She also thought we should mention the new NCI, where Energy Extraction is proposed to be merged with Air Toxics. Susan Bodine plans to announce final NCIs in late May.

You also should have received an e-vite to tomorrow's call at 10 am, which conflicts with our weekly staff meeting. I accepted.

Finally, Marcia suggested a contact Tim Sullivan in Colorado RE audit details

Here is the internal power point we used to brief our AA. Also a draft background paper. Since we didn't use them at ECOS, we didn't get upper management sign off but they are factually correct. If you want to use them for external stakeholders, let me know and we can get them blessed.

Hi Amy,  
Here is a short summary of links to get you started, and then I can follow-up on Monday.

**Environmental Compliance Information for Energy Extraction Portal ("Portal"):** EPA Announces Environmental Compliance Website for the Crude Oil and Natural Gas Sector URL: [www.eciee.org](http://www.eciee.org)  
Press release: <https://www.epa.gov/newsreleases/epa-announces-environmental-compliance-website-crude-oil-and-natural-gas-sector>

- The Portal includes an overview of state regulations and state-specific compliance resources for 23 states that have a high number of oil and natural gas extraction owners and operators
  - If your state is not included in the 23, you can work with NCMS and STRONGER to create a resource page for your state.
    - NCMS: Lisa Stobierski: [LisaS@ncms.org](mailto:LisaS@ncms.org)
    - STRONGER: Ryan Steadley: [steadley@strongerinc.org](mailto:steadley@strongerinc.org)

**Compliance Assistance Centers**

Compliance Assistance Centers help businesses, colleges and universities, local governments, tribes and federal facilities understand and comply with environmental requirements and save money through pollution prevention techniques. EPA provides a wholesale approach to compliance assistance through the Compliance Assistance Centers

Centers Webpage: <https://www.epa.gov/compliance/compliance-assistance-centers>

Amy:

Please reach out to Marcia and she can help or guide you to someone else who can. I think she may be out of the office until Monday.

EPA's Office of Public Engagement

## **EPA Announces Environmental Compliance Website for the Crude Oil and Natural Gas Sector**

**WASHINGTON** - Today the U.S. Environmental Protection Agency (EPA) has released a new compliance assistance resource for owners and operators of crude oil and natural gas extraction operations. This new Environmental Compliance Information for Energy Extraction Portal provides easily accessible information to help companies comply with federal and state environmental regulations."

Many small and medium-sized oil and natural gas owners and operators want to comply with environmental requirements but don't have the expertise to fully understand them," **said EPA Assistant Administrator for Enforcement and Compliance Assurance Susan Bodine.** "The portal has put much of the information

they need in one place to help them comply.”

The portal was developed in collaboration with the National Center for Manufacturing Sciences (NCMS), the State Review of Oil and Natural Gas Environmental Regulations (STRONGER), and the EPA. Funding is provided through the EPA Compliance Assistance Centers (CAC) program. The portal serves as a “first stop shop” for information on federal and state environmental regulations that affect the exploration and development, extraction, production and processing of crude oil and natural gas. Compliance information is organized by statute and technical topics (e.g., well production, processing). In addition, the portal provides information on engaging in oil and natural gas extraction activities in Indian Country.

To view the portal, please visit the [EPA CAC program website](#) or directly access the [Environmental Compliance Information for Energy Extraction Portal](#) at: [www.eciee.org](http://www.eciee.org).

If you would rather not receive future communications from US EPA, Office of Public Engagement, let us know by clicking [here](#).
